Date of Birth: 14 / 05 / 2000

Introduction

I am passionate about technology, and therefore I am currently pursuing a telecommunications engineering degree at the ETSETB. I take advantage of my free time to understand how software systems work or to assemble devices such as 3D printers. I also love learning about business and taking advantage of any opportunity to undertake projects. I am looking forward to learning all I can from the telecommunications industry and gaining work experience.

Experience

CBI Participant

February 2022, Barcelona

Participation in a multidisciplinary project with students from ESADE (MBA), IED (Design) and UPC (Engineering) which has the objective of applying CERN's open science for the purpose of making disruptive innovation for societal impact, specifically targeting UN's sustainable Development Goals.

Cellnex Telecom, Internship

June 2021 - September 2021, Barcelona

Summer commercial / sales internships in the Fixed Operators (Land) division. Carried out feasibility study projects for large MNOs, mainly Orange, BT and Vodafone. Made proposals and monitored provisions. Also helped with administrative tasks with Salesforce and Excel.

Educaixa, EduCoach STEM Challenge 2021

May 2021, Barcelona

Mentored 4 groups of ESO students during the Educaixa Challenge 2021 contest. I was responsible for monitoring their projects and imparting training activities related to STEM.

Pikify, Tech Leader & Cofounder

Summer 2019 - December 2021

I was in charge of the technical area of Pikify, a technology startup that aims to revolutionize the world of photography.

I developed the Web page frontend first using Wordpress and later migrated to a static site for faster loading. Also started the development of a backend platform for process automation.

BCN 3D Technologies, Internship

Summer 2019, Barcelona

Internship in the engineering and R&D department of the company. I organized hardware material in the LAB and helped develop a small prototype PCB.

Luz Roja, Web Developer (Freelance)

2018, Barcelona

I implemented a ticket booking system solution which had the feature of embedded barcodes in tickets. The solution was adapted to the existing Prestashop system.

I also helped in the development of web pages for clients mainly using wordpress.

La Cabra Montesa, Coach

2018, Barcelona

Athletics (trail running) coach, after several years as a member of the team.

Go On Clothing, Web Developer

2018, Barcelona

I developed an online store using woocommerce with payment gateway for a young company that sells clothes on instagram.

Btcom, Internship

2017, Sant-cugat

Internship in audiovisual production company, helping both in the creation and editing of audiovisual content and in the development of a web page for clients.

Studies

Universitat Politècnica de Catalunya, Bachelor's Degree in telecommunication technology and services engineering.

September 2018-Present, Barcelona

Real Monasterio de Santa Isabel

2000-2018, Barcelona

Extracurricular activities

Andover Phillips Academy

Summer 2017, Andover, (Boston) Massachusetts

Participation in a prestigious summer training school, taking programming subjects in JAVA and introducing Photoshop.

Xarxa Vives, Debate Tournament

2017, Barcelona

Participation in a national debate tournament, member of the finalist team.

EduCaixa, Desafio Emprende Silicon Valley.

2016, Barcelona and San Francisco.

Pul-shake team member, winner of the contest and participation in a training trip to Silicon Valley.

Pulshake consists of a wristwatch which helps people with hearing disabilities to function within the domestic environment.

Languages & Certificates

Spanish - native

Catalan - native

English - CAE C1 Advanced

Driving License - B1
